

ON FIRE HIMSELF, HERO  
CAPTAIN SAVES MATE  
FROM DEATH IN BLAZECarries "Human Torch" Out  
of Burning Cabin to Deck  
at Risk of Own Life.

Surrounded on all sides by flames, blinded by smoke and badly burned himself, Capt. William Carrington of the lumber barge *Plattsburg* rescued his mate, John Lyons, during a fire in the cabin of the boat early to-day and carried him up a perpendicular ladder to the deck.

Lyons is burned from head to foot and will die, Carrington refused to go to the hospital, although he is burned on the limbs and body, and is being cared for on a coal barge near his boat.

The *Plattsburg* got in last night with a cargo of lumber for the *Simons Lumber Company* and tied up at the foot of West One Hundredth street. The captain and mate were the only persons aboard, and retired early to their bunks on either side of the cabin.

As a lamp in a bracket on the wall supplied about 1 cubic foot of gas to the cabin. The burning oil was flaming all over Lyons's bunk, and when Carrington awoke his mate, unable to see because of his burns, was dashing frantically around the cabin, his night-clothes afire, trying to find the hatchway.

At each step the burning oil and fragments of clothing from the tortured mate set fire to something else. Capt. Carrington chased the man around the cabin until he caught him. Then he threw him over his shoulders and carried him up the ladder to the deck.

Joseph Martin, watchman for the lumber company, saw the flames and nothing. Policeman Gessabrecht of the East One Hundredth and Fourth street station, and the two reached the deck just as Capt. Carrington staggered up with his blazing burden and collapsed. One smothered the flames, the other with his coat and the other on Lyons, the latter being taken to Reception Hospital.

The fire, which gained headway while the two were attending to the two victims, spread to the lumber piled on the deck of the barge. The vessel, owned by persons on the dock in order that the flames might not be communicated to that structure, drifted out into Little Hell Gate, its deck load burning fiercely.

The *Freight* *Sophia* Mills drew alongside and swept most of the burning lumber into the river by its powerful stream.

## GETS \$2,500 FOR INJURY.

Engineer Was Knocked Down by Heavy Grocery Wagon.

Longhills Ward, an engineer, while engaged at a portable engine in East 21st-street Jan. 4, 1912, was struck by a grocery wagon owned by George Harnett and received injuries to his arm. He brought suit, claiming that he was standing in front of his engine with his back to the wagon and was knocked down.

The case came up before Judge Gavagan and a jury to-day, and it was decided on behalf of the defendant that the accident was due to Ward's neglect. After five minutes' deliberation the jury returned a verdict of \$2,500 for Ward.
